

WATER AT WORK MINISTRY

Brisas Del Mar

Project Completed: 2022

PROJECT DESCRIPTION

This southeastern coastal community is known for tourism. Many local residents are employed at all-inclusive resorts, yet come home to dirty drinking water.

This project expects to provide a water plant, reusable bottles, delivery truck, and plant permits to this community to ensure sustainable, affordable access to safe, clean water.

Project Number: 009

Water Production

TBD gallons/month

Location

La Romana

Plant Manager

Paula Rodriguez

Population Served

TBD

Partnered Church

TBD Members

NOTES

Half of this plant was funded by Eastern Dominican Christian Mission and half by a dedicated group of people from the Cresswind community in Gainesville, GA who came together to organize two Walk4Water events, a trivia night, and a live auction! This truly is a testament to what an impact a committed group of people can make.
