

## WATER AT WORK MINISTRY

# Yaque del Sur

Project Completed: 2017

## PROJECT DESCRIPTION

Jaquimeyes is home to three churches all committed to improving their community's health and youth programs.

This project brought a water plant, cistern, generator, reusable bottles, delivery truck, and plant permits to this community to ensure sustainable, affordable access to safe, clean water.

Project Number: 2017-1 **Plant Manager**  
Reina Matos

**Location**  
Jaquimeyes

**Number of Employees**  
6

**Water Production**  
95,000 gallons/year

**Partnered Church**  
240 Members

## NOTES

Plant Manager, Reina Matos and her team are immensely devoted to problem solving and covering expenses as obstacles arise, going above and beyond to make sure this plant is operating at maximum capacity. In 2019, a new generator was installed to ensure a consistent power source for the water plant.
