

YOU ARE BREAKING BARRIERS

Some people build barriers, you break them down.

When cost was a barrier for children in an orphanage to get clean water, you stepped up in a beautiful way.

In the city of Neiba, Pastor Manuel shared a vision of merging the gift of clean water with a heart for abandoned children that you connected with.

You gave to fund a new water plant in Neiba so orphaned children could get free, clean, and safe water.

In addition, the orphanage that cares for them now even sells the water to the community to pay for the children's care because of you.

Today, those children can wake up and live healthier, safer lives because you generously gave the gift of clean water, regardless if they could afford it.

No one has to go without clean water because of you!

Barriers of sickness and poverty are crumbling because of your beautiful heart for others.

May God Bless You Abundantly,

Dan Blevins

OPEN FOR BUSINESS

Because of you, Agua Fondo Negro opened its long-awaited doors this summer!

The community of Fondo Negro went an entire generation without clean water!

Children, families, and seniors were lined up in the hot sun to purchase water on the day the plant opened.

Since then, Agua Fondo Negro has provided their community with 22,380 gallons of clean, safe water!

That's about as much water that goes down a water park slide every 10 minutes.

Sustainable water plant businesses like this one not only provide clean water, but also connect more people to the hope of the gospel of Living Water!

This is all possible because of you!

After nearly 40 years without access to safe, clean water, this community's thirst is finally being quenched.

Not only that, but now this community has another means of earning an income.

Today, seven people from Fondo Negro are working at the plant.

That is seven more families that have an income that didn't before.

Those families can grow and build a better life because of you.

You didn't just change a life for a day, you changed the lives in a community forever!

HOPE TIMES **NINE**

You are the reason Yolanda and her family of nine have clean water today!

When times are challenging, many families in the Dominican Republic merge with their extended families to share incomes and expenses.

That is what Yolanda's family did.

Now Yolanda is left to care for nine children while their parents go off looking for work. Of course, this added many more mouths to feed and backs to clothe.

However, your giving has ensured that they have one less need to worry about: safe, clean water.

That means nine more eager-to-learn minds sitting in a classroom.

That means nine hospital beds left empty instead of filled.

That means nine more souls filled with hope.

Your giving means a family's future is changed forever.

Thank you for revealing your transformative generosity, servant heart, and caring spirit in such a tangible way.

The impact you made will ripple through Yolanda's family for generations.

PRAISES

- Last month, you raised \$55,000 that will serve ALL of the children in House of Light and over 3,235 people in the communities nearby!
- So far this year, you have been a part of providing over 1,575,000 gallons of clean, safe water to communities in the Dominican Republic!

PRAYERS

- That the Brisas del Mar construction will remain on schedule to open in early November of this year.
- That the construction for the House of Light/Santo Domingo Este plant can begin in January 2022!

MAMA, WHERE'S THE WATER?

What happens when a child needs clean water but their family cannot afford it?

Jeremiah is one of those children.

Young children like Jeremiah may be retrieving contaminated water from polluted rivers or streams.

Not knowing where to find clean water nor having the means to purchase it, families may continue to resort to collecting from contaminated water sources.

Jeremiah's life does not have to be like this.

You can change his future.

When you give you build sustainable water businesses, but you also give so that no one has to go without clean water.

So, how does that happen?

The local church or plant manager can give the water away for free if a family cannot afford it, but this can't be done without you!

You can make clean water a reality for someone like Jeremiah.

Give the gift of clean water today.

Someone like Jeremiah needs you.

Yes! I will help people like Jeremiah get clean water.

- \$85 one-time gift** (I'd like to bless **5 people** with clean water!)
- \$51 one-time gift** (I'd like to bless **3 people** with clean water!)
- \$136 one-time gift** (I'd like to bless **8 people** with clean water!)
