

Agua Villa Magante

Project Completed: 2014

PROJECT DESCRIPTION

Due to its mountainous location, consistent power and reliable water resources were obstacles keeping Villa Magante from having clean water.

This project brought a water plant, cistern, reusable bottles, delivery truck, and plant permits to this community to ensure sustainable, affordable access to safe, clean water.

Project Number: 2014-1 **Plant Manager**
Pastor Vilorio

Location
Villa Magante

Number of Employees
5

Water Production
150,000 gallons/year

Partnered Church
30 Members

NOTES

Plant Manager, Pastor Vilorio, received the Religious Leader of the Year Award and now also uses profits from the water plant business to support a food ministry program. He even runs a Compassion center here! In 2019, a new well was dug and a new generator was installed to continue fighting this plant's geographical challenges.
