

WATER AT WORK MINISTRY

Agua Oliva

Project Completed: 2018

PROJECT DESCRIPTION

Due to its dry and dusty conditions, the community of Mella was overjoyed when our water plant opened for business.

This project brought a water plant, generator, reusable bottles, delivery truck, and plant permits to Mella to ensure sustainable, affordable access to safe, clean water.

Project Number: 2018-2 **Plant Manager**
Pastor Fredy

Location
Mella

Number of Employees
8

Water Production
175,000 gallons/year

Partnered Church
64 Members

NOTES

Once operating, the town mayor proclaimed that the water plant opening was the most exciting day - even more important than when their first school opened. Wow! Following the plant installation, a new generator was also installed to provide a consistent source of electrical power supply.
