

# YOU'RE INSPIRING

Dear \_\_\_\_\_

**We're overjoyed to tell you that a life-changing gift of clean water was made in your honor!**

You inspired a gift to Water at Work Ministry that will change lives in the Dominican Republic forever, physically and spiritually.

**The gift of clean water you've inspired will improve the health, educational opportunity, and economy of a community.** One like where Junior lives.

Junior will no longer be sick with water-borne illness, having to stay home from school and being unable to play outside. He will go to school and have a healthier and more hopeful future because of you!

Children that have never had access to consistent, affordable, and disease-free water now will **thanks to the gift that was made in your honor by**

**This gift to Water at Work Ministry is helping to establish a new water plant business in a rural community of the Dominican Republic.**

There, the water plant will be run and led by a team of local Dominicans, who purify the water using state-of-the-art equipment and deliver it to their community.

Better yet, each water plant is partnered with a local church. The church then shares the Gospel of Jesus with the water plant customers by connecting the earthly hope of clean water with the eternal hope of Living Water.

**Wow! Thank you for inspiring such incredible generosity, compassion, and hope.**
