

YOU CAN MAKE THESE SMILES POSSIBLE

Get a group of friends together and organize your very own bottle-making party today!

Water at Work Ministry is focused on providing families and children in need with access to clean, safe water.

However that resource isn't fully utilized without proper hygiene supplies.

That's where you can make a difference!

You can stand on the frontlines supporting these families and children by setting up a bottle-making party!

It's easy- just assemble WASH (Water, Sanitation, and Hygiene) bottles with much needed toothbrushes, toothpastes, shampoos, soaps, and educational coloring pages about proper hygiene!

You can fill an immense need in this special way! For more information or to donate WASH bottles, please reach out by email (info@wateratworkministry.org) today!
